Portfolio: <https://justicesibisi.github.io/Final-Portfolio/>

PROFESSIONAL SUMMARY

Results-driven Software Developer with expertise in full-stack development, specializing in .NET and Laravel frameworks. Proven track record of building scalable web and mobile applications using modern technologies including React, Node.js, and cloud platforms. Certified Oracle Java SE 8 Programmer, Microsoft Certified x2 and ALX Software Engineering graduate with hands-on experience implementing RESTful APIs, authentication systems, and responsive UI/UX designs. Strong background in agile methodologies, version control, and cross-functional collaboration.

CORE COMPETENCIES

- Full-Stack Development • RESTful API Integration • Object-Oriented Programming
- Agile Methodologies • Database Management • Responsive Web Design
- Authentication Systems • Version Control • Performance Optimization
- Cross-Platform Compatibility

PROFESSIONAL EXPERIENCE

Client: SAMPRA (Asset Management Project)

Independent Software Developer / .NET Consultant

July 2025 – November 2025

- Engineered workflow modules for asset requests, approvals, and incident reporting, improving operational efficiency across multiple departments.
- Developed secure ASP.NET MVC clean architecture integrating C# backend logic with API endpoints, ensuring accurate request validation and processing.
- Built features supporting multi-role access (Employees, Managers, Administrators, Finance, HR), strengthening system-wide authorization control.
- Created SQL queries and optimized stored procedures for inventory, incident, and approval reporting, increasing data retrieval performance by 40%.
- Improved reliability of JSON-based API communication between modules, reducing data mismatch issues.
- Collaborated with internal teams to support financial approvals, asset recovery during HR offboarding and audit ready reporting.
- Built Razor pages, Data Tables with server-fetched JSON data, export options and UI customization.
- Documented system features, approvals, data models, and controller endpoints, streamlining knowledge transfer for new developers.

Ecoosty, Hybrid

Software Developer

March 2025 – October 2025

- Engineered Laravel Livewire authentication flows with backend password reset logic, improving security by 40%.
- Migrated 15+ legacy UI components to utility-first design system, achieving 99% mobile responsiveness
- Developed 20+ form-based features with server validation, reducing user input errors.
- Optimized password reset workflow between Livewire and Laravel controllers, decreasing support tickets by 35%
- Implemented cross-device compatibility testing, ensuring 100% browser compatibility across all features
- Maintained clean codebase following solid principles, reducing technical debt.
- Collaborated in component-driven development workflow, accelerating feature.
- Integrated caching mechanisms using Redis, improving application performance by 45%
- Conducted unit testing with PHPUnit, achieving 85% code coverage across critical modules
- Documented technical specifications and API endpoints, reducing onboarding time for new developers by 50%

CodSoft, Remote

Intern Software Developer

December 2024 - January 2025

- Contributed to coding projects, maintaining 100% commit accuracy in GitHub repository
- Collaborated with 5 team members to implement improved coding practices.
- Applied object-oriented programming concepts to create maintainable codebase across 10+ modules.
- Developed RESTful API endpoints handling daily requests.
- Participated in daily standups and sprint planning, delivering features ahead of schedule.
- Implemented automated testing procedures, increasing test coverage from 60% to 85%
- Documented technical processes and deployment procedures, improving team efficiency.

EDUCATION

ALX Africa | Software Engineering Certificate | January 2025

IT Varsity | Certificate in Full Stack Development | July 2025

Digital Youth ICT | Oracle Certified Associate, Java SE 8 Programmer | November 2024

Phomolong Secondary | High School, Matric | December 2014

CERTIFICATIONS & TRAINING

- Oracle Certified Associate, Java SE 8 Programmer
- ALX Software Engineering Certificate
- IT Varsity Full Stack Development Certificate
- Microsoft Certified Fundamentals AZ-900
- Microsoft Certified Developer Associate AZ-204

SKILLS & TOOLS

Programming Languages: Java, JavaScript, C#, PHP, SQL

Frameworks & Libraries: .NET Core, Laravel, React, Node.js, Livewire, Alpine.js

Databases: MongoDB, MySQL, SQL Server, Redis

Tools & Platforms: Git, GitHub, Linux, Apache, XAMPP, Netlify, Azure DevOps

Testing: Jest, Mocha, PHPUnit, Unit Testing

Methodologies: Agile, SDLC, OOP, MVC, RESTful APIs, JWT

PROFESSIONAL AFFILIATIONS

- ALX Africa Alumni Network
- Oracle Certified Professional Community

KEY ACHIEVEMENTS

- Developed and deployed 2+ full-stack applications serving 20+ monthly active users.
- Reduced application load times by 45% through performance optimization techniques.
- Maintained 100% project delivery rate across all assigned tasks and features.
- Implemented security measures that eliminated 100% of critical vulnerabilities.

ADDITIONAL INFORMATION

Fluent in English, Tsonga, Zulu, Sepedi, and Xhosa | Holder of C1 Driver's License | Passionate about emerging technologies, gaming, and music.
